Speaker Profile

Chris Abts
Research Assistant/Ph.D. Student, Center for Software Engineering, University of Southern California.

Chris Abts received a Bachelor’s degree in Industrial Engineering from Georgia Tech in 1981, followed by a year on scholarship at the Swiss Federal Institute of Technology (ETH) in Zurich. He earned a Masters in Industrial & Systems Engineering from the University of Southern California in 1989. He spent ten years in industry, working in the area of Strategic Nuclear Weapons Mission Planning automation and analysis. He is now at USC pursuing a Ph.D., combining studies from both the ISE and Computer Science departments, and the USC Center for Software Engineering where he is developing the COCOTS COTS integration cost model under Barry Boehm. He is one of the co-authors of the recently published book Software Cost Estimation with COCOMO II (Prentice Hall, 2000).

Cyrus Fakharzadeh

Cyrus Fakharzadeh is a Research Assistant for the Center for Software Engineering at the University of Southern California. Being a Ph.D. student, he is actively assisting in the research of CORADMO. At the same time, he is the Center for Software Engineering Webmaster. He holds an M.S. in Computer Science from the New York Institute of Technology and a B.S. from the University of Washington, where he majored in Computer Science. He has presented his research on CORADMO at ISPA/SCEA 2001. Also, he was a presenter at the 15th International Forum on COCOMO and Software Cost Estimation (October 24-27, 2000) and the 14th International Forum on COCOMO and Software Cost Modeling (October 26-29,1999). Currently, he is President of the Computer Science Graduate Organization at USC.

Lee Fischman

Lee Fischman is Special Projects Director at Galorath Incorporated, where is responsible for much of the research and development occurring in the realm of software estimating tools. Mr. Fischman studied economics at the University of Chicago and UCLA.
