

Ground System Architectures Workshop

"Innovation on the Ground"

Manhattan Beach Marriott, Manhattan Beach, Calif.

March 3, 2010

Session 12A
Wednesday 5:30 pm

Compatible Satellite C2 Progress and Challenges

Come hear short presentations from the Air Force Space Command, NRO, NASA, and the ORS followed by an hour of open discussion.

Joint SatOps Compatibility Committee (JSCC)

- Grew out of last year's GSAW discussions
- Multiple government space organizations addressing common ground system and operations topics
- Topics include frameworks, standards, vendor roles and capabilities
- Tangible progress in the past year
